

Subject :- Proposal for Creation of "Water Conservation Fund"

- As the live storage capacity of a reservoir is mainly utilized by the industries in the non-monsoon period between October to June every year, they may be involved to take social responsibilities for water conservation by contributing towards a corpus fund termed as "Water Conservation Fund"
- 2. The industries drawing more than or equal to 5 cusec of water shall contribute one time deposit of Rs. 2.5 crore/cusec of water allocated to the industries towards the 'Water Conservation Fund'.
- 3. This fund shall be utilized for construction of different Water Conservation Projects such as Medium Irrigation Projects, Minor Irrigation Projects, Check Dams/Barrages, Weirs, Bridge-cum-Barrages etc. in the upstream areas for conservation of water to be used in lean seasons.
