PRESS BRIEF

DEPARTMENT OF WATER RESOURCES

SUB:- AMENDMENT TO THE ODISHA DIPLOMA ENGINEERS' SERVICE (METHODS OF RECRUITMENT AND CONDITIONS OF SERVICE) RULES, 2012.

The "Odisha Diploma Engineers' Service (Methods of Recruitment and Conditions of Service) Rules, 2012" came into force with effect from 5.1.2013. In the said rule it has been provided that for promotion to the grade of Assistant Engineer a Junior Engineer must have completed 10 years of regular service. As the contractual period of service was not taken into account for the purpose of consideration of promotion, a Junior Engineer has to wait for a longer period to become eligible for getting promotion. Now, it has been decided that both the contractual and regular service period rendered as Junior Engineer shall be taken into account to determine the period of service for the purpose of promotion. So that the total period remains ten years from appointment and the existing vacant posts of Assistant Engineers shall be filled up without waiting for longer period. Accordingly, the State Cabinet has approved to amend the Odisha Diploma Engineers' Service (Methods of Recruitment & Conditions of Service) Rules, 2012 suitably.
